

## Island Prostate Centre's Family Tree Business Program

We know how much you care for your staff and employees - you consider them as part of your work family. We also know that when someone from your team gets diagnosed with prostate cancer, it can have a real effect on their home, their family, and their work life. This is why we've created the Family Tree program and here's where you can help.

**Step one:** Although the programs offered by Island Prostate Centre are free of charge, they are not free to operate. Island Prostate Centre requires community donations to continue to run sustainable programs that help men and their families here on Vancouver Island. By having your business join the Centre's Family Tree, you will be helping to add your support to the valuable services offered.

**Step two:** Make sure your staff are aware of all the free programs offered by Island Prostate Centre such as the [Prostate Health Nurse Navigator](#). This program offers health guidance, information, and emotional support to navigate a prostate cancer diagnosis, right from the start.

### How you can become part of the Island Prostate Centre Family Tree:

We have made this easy to get involved! For an annual tax-deductible donation of only \$180 (equals only \$15 a month) you will be providing key support for all the programs and services offered to men and their families, which may include your valued employees.

In recognition for your generous support and becoming a member of our family tree, your company will receive:

- A window sticker and poster that you can proudly display showing your membership in the Island Prostate Centre's Family Tree program.
- An electronic version of the sticker for your website
- A listing on the IPC website, Family Tree supporter page
- Access to prostate health and program information for your employee's courtesy of Island Prostate Centre

### Why join the Family Tree?

Studies show employers report a high level of concern in supporting their employees' cancer-related needs in comparison to any other type of disease or health condition. Your annual donation will help increase accessibility to Island Prostate Centre across Vancouver Island. By displaying your membership, you will not only highlight your company's community-giving goals but help bring awareness to all our free services. This donation can have a large effect on your valued staff members and have a real positive impact on supporting men and their families on Vancouver Island. **A diagnosis of prostate cancer affects the whole family, and you can help make a real difference by joining ours.**
